

Resolution No. 2023-8-3

Rate Table IV
Water Connection Charges
General and Local Charges
September 1, 2023 - August 31, 2024

The District assesses charges on all accounts that connect to the District's water system. The charges are based on the size of meter. The District Code CVWDC 9.10 explains the water connection fee. The connection charges General and Local do not include the cost of the water meter installation. For September 1, 2023-August 31, 2024 the SFR, MFR, and LMFR are the same amount up to 1 inch meters.

The general and local facility connection charges increase automatically each year, on September 1. The increase is based on the change in the Consumer Price Index (CPI) for the greater Seattle area for the 12-month period of July 1st to June 30th. The annual CPI adjustment is not less than zero percent and does not exceed five percent.

*Additional charges may apply.

General Connection Charges / General Facilities Charges (GFC)

This charge is collected on all connections for the ongoing maintenance and long term replacement of facilities for the overall district.
