

Rate Table V
Sewer Connection Charges

Resolution No. 2023-8-3

September 1, 2023 - August 31, 2024

The District assesses charges on all accounts that connect to the District's sewer system. The charges are based on an amount per acre for 3.13 gallons per minutes of flow. The District Code CVWDC 9.20 explains the sewer connection fee. The connection charges do not include the cost of the side sewer installation.

The connection charges increase automatically each year, on September 1. The increase is based on the change in the Consumer Price Index (CPI) for the greater Seattle area for the 12-month period of July 1st to June 30th. The annual CPI adjustment is not less than zero percent and does not exceed five percent.

*Additional charges may apply.

Sewer Connection Charges Outside of Sewer ULID No. 5

This charge is collected on all connections for the ongoing maintenance and long term replacement of facilities for the overall district.

<u>Acre of Property</u>	<u>Amount</u>	<u>Flow gallons per minute</u>
per 1 acre	\$ 32,813.00	3.13 gallons per min

Discharges exceeding design criteria
